Push-in Fittings

The most popular series:

50000

First Push-in series launched

-0.99 / 20 bar

-20 / +80 °C

Compressed air, vacuum, water

Top quality technopolymer

-0.99 / 20 bar

-20 / +80 °C

Compressed air, vacuum, water

55000

***56000 (compact)**

57000

***89000(inch)**

Full metal solution

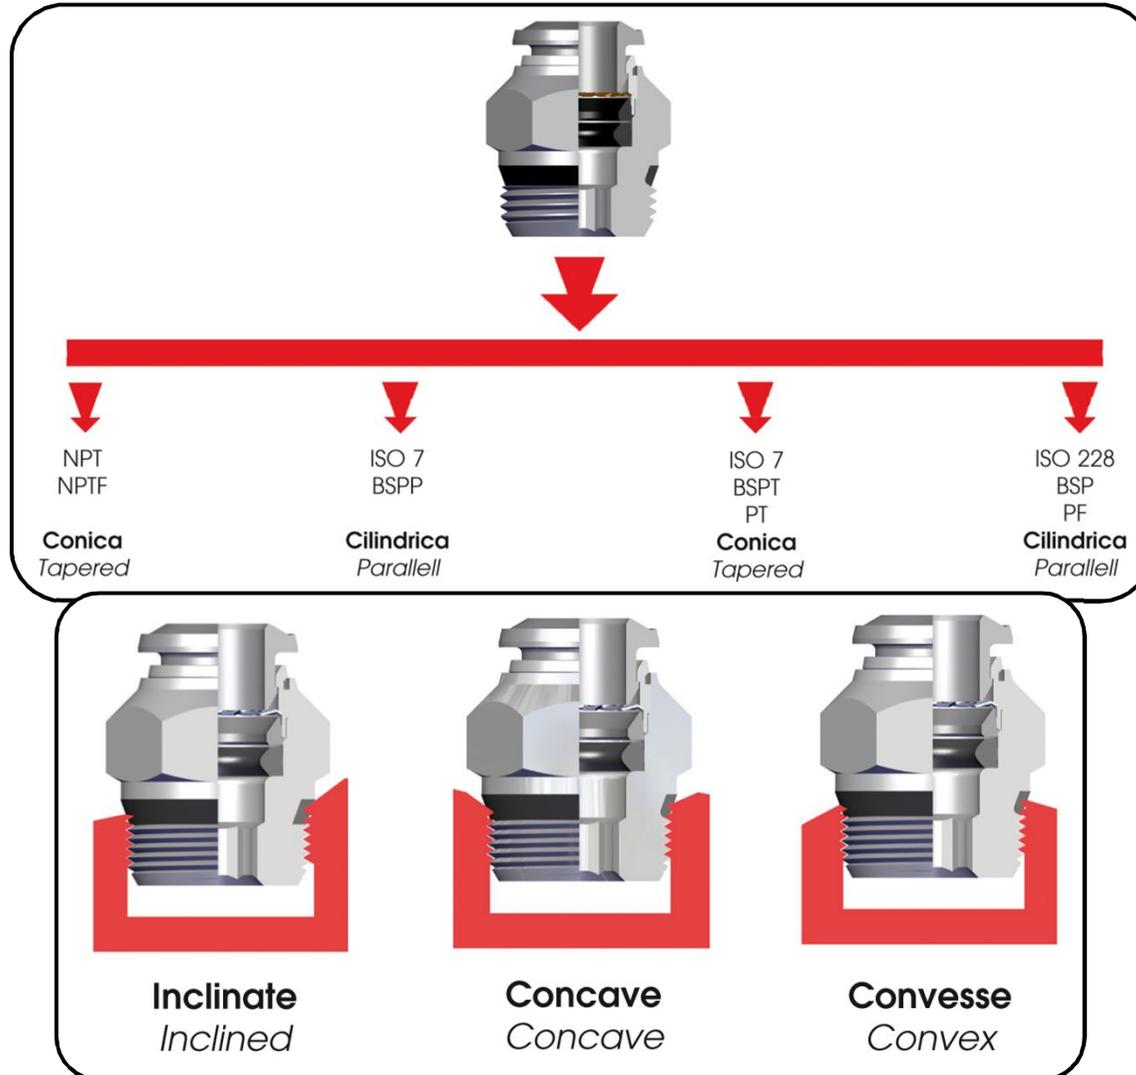

-0.99 / 20 bar

-20 / +80 °C

Compressed air, vacuum, water,
steam, all fluids compatible

Push-in Fittings

Universal thread: BSPP- BSPT - NPTF

Push-in Fittings

Special application series:

New 40000V

New serie for heavy duty

-0.99 / **30 bar**

-15 / **+130 °C**

Compressed air, vacuum, water, steam

Double gripper

58000 High pressure

Lubrication and high pressure

0 / **150 bar**

-30 / **+130 °C**

Oil and grease

Push-in Fittings

Food & Beverages:

70000 serie

Brass – NSF/ANSI169

softdrinks, milk, beer

59000 serie

Brass / NSF/ANSI169

softdrinks, milk, beer
drinking water / coffee

60000 serie

Stainless steel AISI316L

In agressive environment

Push-on, Adapters

1000

Adapters

All Fluids Compatibility

Pressure and temperature related to the tube

Orienting items -20 / +80 °C

Compressed air, all fluids compatible

Supersafe

Vibration environment

Complete range M5 to 1"

Pressure may vary according to the item

+300°C

Compressed air, water, oil

Largest range ever on the market

Nickel-plate protection

Compression fittings

9000, 10000, 13000 series

All Fluids Compatibility

Metal tube connection

Orienting items -60/ +300°C

Compressed air, water, oil, general industrial fluids

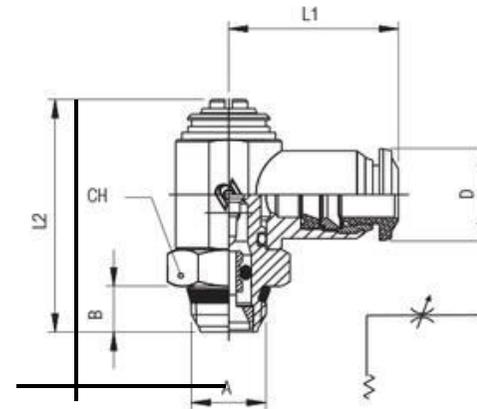

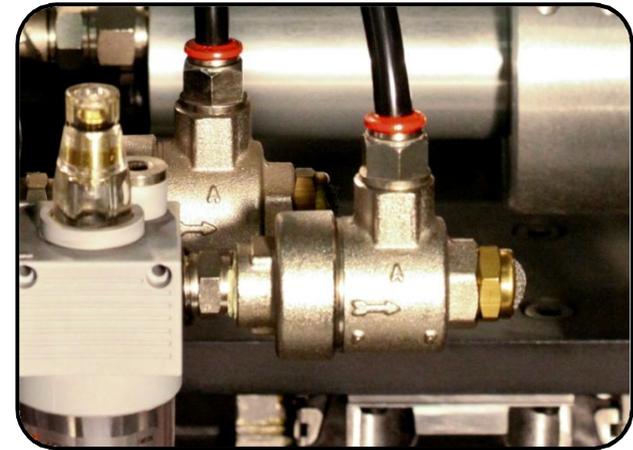

3 different standards available

Up to bigger diameter (22mm)

***Is not possible to combine nuts and olives of different series**

New 56900
Compact flow reg

MINIBALL VALVE GHILUX

FKM -15 / +130 °C
EPDM -40 / +130°C
HNBR -30 / +130 °C

Compact and top quality

-0.99 / 20 bar

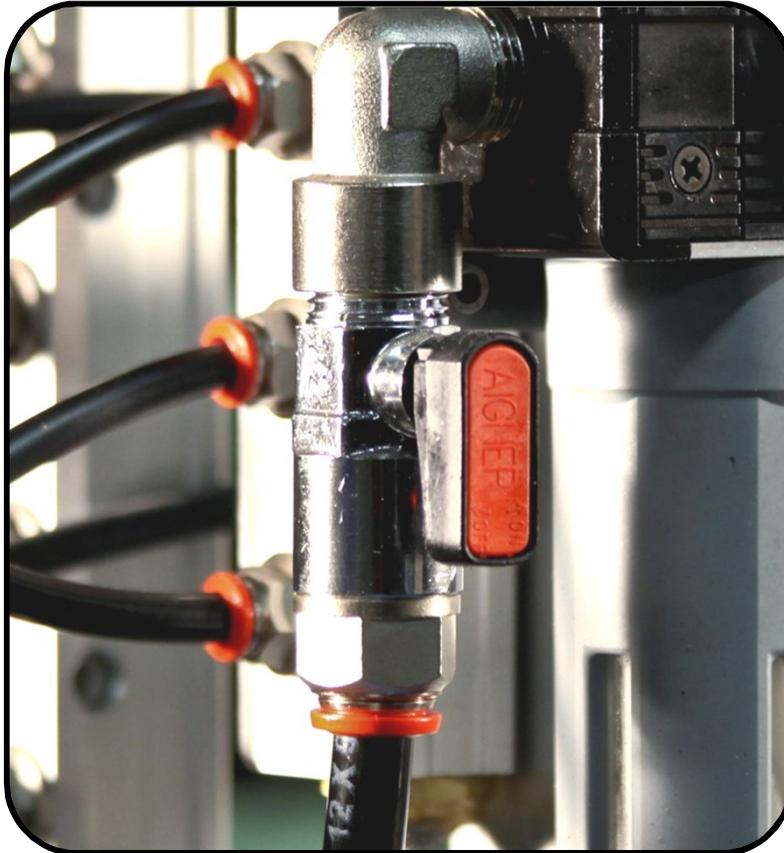

-20 / +80 °C

Compressed air, water, oil, 1° and 2°
family gasses (medium pressure)

3° family gasses (low pressure)

Different kind of connection available
